**DETAILED ACTION**

Receipt is acknowledged of the amendment filed 02/08/2008.

The claim objections, rejection of the claims under 35 USC 112, second paragraph, as well as 35 USC 102(b) are hereby withdrawn in view of applicant's amendments to the claims.

The following are new rejections of the claims found during a supplemental review for allowable subject matter:

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 14, 17-19, 21-24, 27, 28, 31-37 and 39-41 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are indefinite in that the Markush Group of carriers contains the term "compositions". This term is inclusive of all the other members of the Markush Group. The Markush Group also contains "lipid foams" and "foams". These terms are coextensive. As a result, the metes and bounds of the claimed Markush Group are indefinite.

Correction of the above would place the application in condition for allowance.
